

Cover — Full Code Review Design Sheet

Portfolio: Ufaq Khalid

Purpose: Complete section-by-section design + animation reference for code review.

Nothing skipped: fonts, sizes, backgrounds, buttons, glows, AND animations for every area.

Animation stack used on the site

- GSAP 3 + ScrollTrigger + ScrollToPlugin (+ @gsap/react)
- Framer Motion 13
- React Three Fiber + drei + Three.js (Hero 3D only)
- CSS keyframes / transitions (logo, pulse, trail, buttons, services accordion)

Shared scroll reveal (useStaggerReveal)

- Library: GSAP ScrollTrigger.batch
- Trigger: when item top hits 80% of viewport
- From: opacity 0, y +40px (mobile y capped at 24)
- To: opacity 1, y 0 · duration 0.7s · stagger 0.1 · ease power3.out
- Reverses when scrolling back up (unless once: true)
- Respects prefers-reduced-motion

Contents of this PDF

1. Global fonts & tokens
2. Navbar (width, weight, glow, Contact Me, hamburger + animations)
3. Theme toggle
4. Hero + 3D + animations
5. About + animations
6. Skills cards + animations
7. Services + animations
8. Work cards + animations
9. Testimonials cards + animations
10. FAQ + animations
11. Contact + animations
12. Footer + animations
13. Scroll progress, cursor trail, headings, ornaments
14. Work inner pages + architecture blueprint
15. Quick animation map (cards & elsewhere)

1. Global fonts & design tokens

Fonts (layout.tsx via next/font)

- Display / headings: Fraunces (weights 500, 600, 700) — CSS .font-display
- Body / descriptions / UI: Manrope (400, 500, 600, 700) — body default

Do headings share one size?

NO — same Fraunces family, different sizes by role (see each section).

Same font for headings and descriptions?

NO — headings = Fraunces; descriptions = Manrope.

Layout

- .container-x max-width 1120px, centered
- .section-pad: 5.5rem / 1.25rem !' md 7rem / 1.5rem

Dark tokens

- Background #07090f · text #eef2f7 · muted #9aa3b5
- Teal #2dd4bf · violet #a78bfa · amber #fbbf24

Light tokens

- Background #fffaf6 · text #13294b · muted #5b6b88
- Soft violet / pink / amber accents; pastel page wash

Global button hover (all share lift ~3px)

- .btn-neon: outline CTA !' stronger border + glow halo
- .btn-soft: filled !' scale 1.02 + teal/pink glow
- .btn-contact-glow: Contact Me !' teal (dark) or pink/violet (light) glow
- .btn-whatsapp: gradient !' scale 1.03 + brighter glow
- .btn-copy-email: border shifts to teal / violet

2. Navbar — same on every page

Same width on every page?

YES — one Navbar in root layout (Home + Work inner pages).

Width / length

- Pill max-width 800px centered; full width inside that cap
- On scroll shrinks to max-width 720px (GSAP)
- Header min-height 72px

Weight (font-weight)

- Nav links: Manrope ~400, 13px (14px xl)
- Logo letter U: Fraunces weight 600, 0.95rem
- Contact Me: weight 600

Glow effects

- Pill drop shadow (dark): 0 8px 40px rgba(0,0,0,0.35) + backdrop blur
- Logo: breathing teal glow (CSS navLogoBreath, 3s loop)
- Logo ring: spinning conic gradient (CSS navLogoSpin, 8s; hover 2.5s)
- Logo letter text-shadow teal glow
- Logo hover: scale 1.06 + stronger glow
- Active link: teal status dot with soft glow

Contact Me button

- Pill, light fill, dark text, weight 600
- Hover: translateY(-3px) + teal ring/glow (pink/violet in light)

Three-line hamburger (mobile)

- 40×40 circle; 3 bars 2px × 18px
- Hover opacity 90%
- Open animation (CSS): bars form X (rotate ±45°, middle fades)

ANIMATIONS — Navbar

- Library: GSAP + ScrollTrigger + CSS keyframes
- Scroll shrink/expand: duration 0.4s, ease power3.out
shrink: maxWidth 720, blur 16px, tighter pad, Contact font 12px
expand: maxWidth 800, blur 24px, Contact font 14px
- Logo breath + spin: CSS infinite loops
- Mobile menu: mount/unmount (no motion library)

3. Theme toggle

Position: fixed top-right, 2.6rem circle, z-60

Icons: sun (when dark) / moon (when light)

Stores choice in localStorage key ufaq-theme

ANIMATIONS — Theme toggle

- Library: CSS only (no GSAP / Framer)
- Hover: translateY(-2px) scale(1.04) + soft teal shadow, 0.25s
- Theme colors on body transition 0.35s ease

4. Hero (first section) — full detail + animations

Background type

- Base page bg + aurora-teal soft radial glows
- Body code-texture overlay (subtle grid)
- Optional 3D laptop scene on desktop ("e900px)

Your name (Ufaq Khalid)

- Font: Fraunces · weight 600 · H1
- Size: clamp(3.5rem, 9vw, 8rem)

Under name — role line

- On-screen: "Software engineer & full-stack builder."
- Font: Fraunces italic · clamp(1.25rem, 3vw, 2rem)
- Color: --hero-sub (soft muted)

Supporting paragraph: Manrope ~18–20px muted

CTAs: .btn-neon "View my work !" + .btn-soft "Let's talk"

Availability pill: CSS heroPulse 2.4s on status dot

ANIMATIONS — Hero text (GSAP timeline on load)

1. Availability pill fades/slides up 0.6s power3.out
2. Name words mask-split: yPercent 110!0, 0.8s, stagger 0.08, expo.out
3. Role, paragraph, CTAs, meta: fade + y 20!0, 0.7s, stagger 0.08
4. Scroll cue !": GSAP yoyo float y:6, 1.6s sine.inOut infinite

ANIMATIONS — Hero 3D (R3F + GSAP + ScrollTrigger)

- Entrance: laptop scale/rotate/position 1.1s expo.out delay 0.35
- Idle useFrame: elliptical drift, bob, sway rotation
- Orbit icons rotate; pointer parallax
- Scroll scrub 0.6: moves/scales/fades scene as you leave hero
- Fallback GreenSphere: GSAP float + mouse parallax if WebGL fails

5. About — full detail + animations

Background: aurora-blend (teal + violet radials)

Eyebrow: Manrope xs uppercase tracking 0.2em

Title H2: Fraunces clamp(2.2rem !' 3.75rem)

Body / step text: Manrope 16–17px muted

Step titles: Manrope semibold ~1.5–1.75rem

Step numbers: Fraunces large clamp(2.5–4rem)

Ornament: SectionOrnament accent blend (see page 13)

ANIMATIONS — About (GSAP only)

- Mobile (<900px): each step scroll-reveal y 32!0, opacity 0!1, duration 0.7s power3.out, ScrollTrigger top 85%, reverses
- Desktop ("e900px): scroll position sets active step
inactive opacity 0.3; active 1
active number color !' accent + y fromTo 8!0
active title x fromTo 16!0
active dots: accent fill + glow, scale 1.15, ~0.4–0.5s
- Dot click: native smooth scrollTo (no GSAP)

6. Skills cards — full detail + animations

Background: aurora-blend

Section title: Fraunces H2 via SectionHeading (4xl !' 5xl md)

Card chrome: glass / surface, rounded-2xl, backdrop blur

Titles: Manrope semibold; chips Manrope 11px uppercase pills

Descriptions: Manrope sm muted

ANIMATIONS — Skills (DO NOT SKIP)

1) Enter view — GSAP useStaggerReveal

y 40, opacity 0!1, stagger 0.1, duration 0.7, power3.out

2) Card hover stack — Framer Motion SPRING

type spring · stiffness 160 · damping 20

Rest poses: offset x and slight rotate (stacked fan look)

Hovered card: y -10, rotate 0, scale 1.02, stronger shadow

Other cards: opacity dimmed to 0.42

Trigger: mouse hover / keyboard focus

ANSWER: Skills cards use Framer Motion spring hover + GSAP stagger enter.

7. Services — full detail + animations

Background: section-pad + aurora-blend

Title: Fraunces H2 SectionHeading

Row titles: Manrope weight 600 (not display font)

Tags: chip pills; media aspect 16/10 rounded-2xl (local WebP art)

Icon circle 48×48 soft surface

ANIMATIONS — Services

1) Enter view — GSAP useStaggerReveal (y 40, stagger 0.1)

2) Accordion open/close — CSS only (no Framer height on rows)

Chevron rotates 180°, 400ms cubic-bezier(0.33,1,0.68,1)

Open chevron: accent border/bg + glow

Panel: grid-rows 0fr!''1fr + opacity, 500ms

Inner content: translate-y / opacity 400ms; image scale 0.96!''1

Trigger: click to expand one service

8. Work cards — full detail + animations

Background: section-pad + aurora-violet

Title: Fraunces H2 “Selected case studies”

Subtitle + card text: Manrope

Category: Manrope 0.68rem uppercase violet

Card: dark #1c1c1c (light lilac tint), radius 20px

Images: optimized WebP; gradient fade at bottom of media

ANIMATIONS — Work cards (DO NOT SKIP)

1) Enter view — GSAP useStaggerReveal (y 40, stagger 0.1)

2) Hover 3D tilt — Framer Motion

perspective 900px · rotateX spring to 70° (tips backward)

spring: stiffness 160, damping 20, mass 0.45

media translateZ 18px; text block translateZ 28px

Only on fine pointer + not reduced-motion

3) CSS on group-hover

Image scale 1.035 over 500ms ease-out

Border/shadow intensify 300ms

“Case study !—” brightens

ANSWER: Work cards = Framer Motion 3D tilt + GSAP stagger + CSS zoom.

9. Testimonials cards — full detail + animations

Background: section-pad + aurora-blend

Title: Fraunces H2 "What people say"

Cards: rounded-3xl surface, blur, shadow; horizontal snap scroll

Quote mark: Fraunces text-5xl low opacity

Quote body / names: Manrope

ANIMATIONS — Testimonials (DO NOT SKIP)

1) Enter view — GSAP timeline on section (top 75%)

From: opacity 0, y 48, scale 0.9

To: visible · 0.4s · ease back.out(1.5) · stagger by card index * 0.12

Reverses when scrolling away

2) Idle float loop — GSAP after enter

y: -8 · 1.45s · sine.inOut · yoyo · repeat infinite · delay per card

Pauses while hovering / dragging the scroller

3) CSS hover: translateY(-8px) approx (-translate-y-2) + teal border glow

ANSWER: Testimonial cards = GSAP enter + GSAP float loop + CSS hover lift.

10. FAQ — full detail + animations

Background: aurora-blend + extra radials; teal!violet spine/rail

Title: Fraunces H2 (amber accent in light theme)

Questions: Manrope semibold; Answers: Manrope sm muted

Open card: accent wash + glow; index badge fills accent

ANIMATIONS — FAQ

1) Enter view — GSAP useStaggerReveal (y 40, stagger 0.1)

2) Open/close answer — Framer Motion AnimatePresence
height 0!auto, opacity 0!1, duration 0.28s

3) CSS: chevron rotate 300ms; card bg/shadow 300ms

Trigger: click question row

11. Contact — full detail + animations

Background: aurora-teal (dark) / aurora-amber (light)

Title: Fraunces H2

Labels: Manrope xs uppercase; inputs Manrope on surface fields

Links: contact accent color (teal dark / amber light)

Form: glass-strong rounded-3xl panel

Submit: .btn-whatsapp full gradient glow button

ANIMATIONS — Contact

- Enter view — GSAP useStaggerReveal on form fields
y 24, stagger 0.08, duration 0.7, power3.out
- Button hover: CSS translateY(-3px) scale(1.03) + glow
- Submit action: opens WhatsApp (no animation library)

12. Footer — full detail + animations

Atmosphere: top hairline + soft teal radial glow

Giant watermark name: Fraunces min(22vw, 9rem), gradient-clipped text

CTA line: Fraunces 3xl/4xl "Have an idea? Let's build it."

Buttons: .btn-soft + .btn-copy-email

Column labels / links / social: Manrope

Social 40×40 circles; hover teal border + 0 0 18px glow

Availability pill: CSS heroPulse (same as hero)

ANIMATIONS — Footer

1) Grid columns — GSAP useStaggerReveal once:true (y 40, stagger 0.1)

2) Wordmark — GSAP fromTo y 40 / opacity 0.35 !' resting,

0.9s expo.out, ScrollTrigger footer top 90%, plays once

3) Glow orb follows mouse — GSAP quickTo x/y duration 0.6 power3.out

4) Nav link hover — CSS translate-x + teal color + arrow fade

13. Scroll progress · Cursor trail · Headings · Ornaments

Scroll progress button (bottom-right)

- Library: GSAP + ScrollTrigger + ScrollToPlugin
- Appears after leaving hero: fade + scale 0.85!1, 0.45s
- Ring stroke draws with page scroll (scrub: true)
- Click: smooth scroll to top duration 1s power3.inOut

Cursor trail (desktop fine pointer only)

- Library: CSS trailFade 0.55s (React state, no GSAP)
- Spawns project thumbs every 55ms while moving; keeps last 5
- Size 64×96px-ish, slight random rotation; removed after 420ms

SectionHeading (used by Skills, Services, Work, etc.)

- Title: Fraunces text-4xl !' md text-5xl
- Eyebrow: Manrope xs uppercase
- ANIMATION GSAP ScrollTrigger top 85%:
eyebrow fade/slide; title words mask-split stagger 0.06 expo.out;
subtitle fade/slide; reverses on scroll back

SectionOrnament (wavy SVG under titles)

- ANIMATION GSAP: stroke draws dashoffset, then end-dot scales in
duration ~0.9s + 0.35s; ScrollTrigger top 85%; reverses

14. Work inner pages + Architecture blueprint

Route: /projects/[slug] — same global Navbar (800!720 still applies)

Page wash: aurora-violet

Layout: sticky TOC aside + article

Typography

- Page title H1: Fraunces 4xl !' 5xl
- Meta category: Manrope xs uppercase violet
- Summary + Problem/Approach/Outcome body: Manrope muted ~1.02rem
- Section H2s: Fraunces 2xl !' 3xl (smaller than hero H1)
- Metrics values: Fraunces ~2xl
- Stack chips: Manrope pills

Architecture blueprint

- Static SVG (NO animation library)
- Dark #121212, teal #2DD4BF, cyan #67E8F9, white lines, flat vector
- DSA Arena loop: Input !' Data Processing !' State Machine !' Gameplay Engine Renderer
- Other projects: same visual system, project-specific node labels

ANIMATIONS — Inner pages

- No GSAP / Framer section reveals on the case study page itself
- Only CSS color transitions on TOC links / back link
- Bottom CTA: "More case studies" (.btn-soft) — demo button removed

15. Animation map — cards & everywhere (review checklist)

WORK CARDS

- Enter: GSAP stagger reveal
- Hover: Framer Motion 3D rotateX tilt (spring) + CSS image zoom

SKILLS CARDS

- Enter: GSAP stagger reveal
- Hover: Framer Motion spring (lift, scale, straighten, dim others)

TESTIMONIAL CARDS

- Enter: GSAP fade/scale with back.out
- Idle: GSAP floating yoyo loop
- Hover: CSS lift + teal glow; float pauses

ELSEWHERE

- Hero text: GSAP load timeline + word split
- Hero 3D: R3F idle + GSAP entrance + ScrollTrigger scrub
- Navbar: GSAP scroll shrink + CSS logo breath/spin
- About: GSAP scroll stepper / mobile reveals
- Services: GSAP enter + CSS accordion
- FAQ: GSAP enter + Framer height accordion
- Contact: GSAP field stagger
- Footer: GSAP stagger + wordmark + mouse glow
- Headings/ornaments: GSAP scroll draw/reveal
- Scroll progress: GSAP scrub + scrollTo
- Cursor trail: CSS fade only
- Theme toggle: CSS hover only
- Case study pages: no motion library (static + CSS)
- Architecture diagram: static SVG

End of full design sheet — for code review day.
